

Self Adhesive Security Seals & Tapes

Highly visible tamper evident security message

KNDM - Non residue door VOID seal

Tamper-Evident security seals for Road Transport and Air Cargo Security to comply with Department for Transport (DoT) single direction cargo (SDoC) - effective from 1st September 2009.

Single Direction on Cargo requires an auditable trail of secure transit throughout the supply chain, from the original source to the airside cargo facilities, and onward to the final destinations.

Tamper-evident methods of securing the transport and cargo are specified by the Department for Transport as acceptable means of complying with this requirement.

Due to the "deadening of the adhesive about the centre the seal cannot be replaced once the seals security cuts have been broken
