

## Self Adhesive Security Seals & Tapes

### KNDM - Non residue door VOID seal

Highly visible tamper evident security message

It is becoming mandatory that all airlines need to increase the levels of security in respect to catering trolleys and delivery vehicles. Furthermore bar carts and tax free containers should be effectively sealed in order to minimise theft and unauthorised access.

The TydenBrooks KNDM self adhesive tamper evident security seal offers many benefits over alternative types of seal.

Easy breakage of seal when door is opened leaving effective removal tabs

Due to the deadening of adhesive in the centre the seal cannot be reapplied intact. Leaves on residue

### DUTY FREE & BAR BOXES

#### STOCK SEALS

- Duplicate number tab for ease of use on documentation.
- Supplied in reels of 1,000 seals, narrow edge leading.
- Perforated backing liner between each seal.
